

03-123 #1

May 21, 07

Dear Chairman Martin, Commissioners
Adelstein, Copps, M. and
Tate:

I'm a deaf person and I use Video Relay
Service (VRS) to communicate. I
was appalled to learn that the F.C.C.
Staff is intent on drastically
cutting the VRS Rate, and effectively
cutting VRS Availability for the
Deaf, instead of Seeking to Limit
the number of Deaf people with VRS
access. The FCC should do everything
in its power to make VRS available
to more deaf people.

I, along with other Deaf individuals,
use these Services in both my work
and personal life. It is an important
way in which I communicate with
both hearing and deaf individuals. I
urge you to do everything you can to
make VRS Service available to the many
deaf people who currently do not have
access to this vital, life-changing
Service.

#2

The VRS Rate Should encourage the VRS providers to:

Serve more deaf people, not discourage them from reaching out to more deaf people.

Provide interpreter training programs. So that there will be an adequate number of qualified ex interpreters for VRS. and the Local Deaf Communities

Provide Service and technology improvement such as the development of New Video phone equipment, fulfilling the Americans with Disabilities Act (ADA) Mandate of Functionally Equivalent Telecommunications Service I, along with other deaf individuals, their families and coworkers, Depend on VRS and other Relay Services.

Please Stop any VRS program Cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications Service.

Sincerely, Helen Chin

Dear Chairman Martin,

I am writing to you to express my concern that funding may be cut for the Video Relay Centers. I am a sibling of five Deaf adults and the Sorenson Video Relay center has been a wonderful addition to our communication. I have never been able to have the wonderful conversations that I now am able to have except when we were actually in each other presence. Four of my siblings reside in Kansas, one lives in New York and I being the only hearing sibling live in Virginia. This tool has added so much joy to all of our lives as well as being used in an emergency situation with my eldest sibling who now lives in a nursing home. Without the center we would have had to rely on the mail system to discuss life altering decisions but with the Sorenson Center we were all able to talk and make those decisions in a natural way. Please continue to work on providing a stable funding so that this service can continue to be offered to both hearing and deaf. Thank you for your consideration.

Sincerely,

M. Lucille Mulich

Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

RE: CG Docket No. 03-123; TRS Fund—Drastic VRS Rate Cuts

Dear Chairman Martin,
Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is proposing a drastic cut to the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS
- Improve service and technology so the mandate of the Americans with Disabilities Act (ADA) for functionally equivalent telecommunications services is met

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the ADA to provide deaf people with functionally equivalent telecommunications services.

Sincerely,
